## **CliniSys acquires ApolloLIMS to grow community and public health diagnostics capability**

### ***Acquisition confirms CliniSys Group as a market leader in public health and toxicology diagnostics in North America; provides springboard for global growth***

TUCSON, Arizona – 7<sup>th</sup> April 2022 – CliniSys today announced it has acquired ApolloLIMS, a leading provider of laboratory information management systems based in Nashville, Tennessee, and with specialist expertise in clinical, public health, toxicology and molecular diagnostics.

The ApolloLIMS team will join CliniSys, bringing their industry expertise, knowledge and proven technology offering. The announcement confirms a significant step toward fulfilling CliniSys' vision to enable a new wave of digital diagnostics and community laboratories, spanning Environmental, Water Quality, Public Health, Toxicology and Agriculture laboratory testing markets.

“ApolloLIMS and its team bring tremendous expertise to CliniSys. Not only will they help expand our knowledge of diagnostics within and beyond the clinical laboratory, but they share our deep belief that the future of digital diagnostics lies in the cloud,” said CliniSys' CEO Michael Simpson. “With the addition of ApolloLIMS, we are now poised to seize new opportunities to quickly expand our offerings in community and public health diagnostics, and to help better track and prevent disease.”

All current ApolloLIMS customers will continue to be supported as normal. Over time the ApolloLIMS solution will be integrated into the CliniSys product family as the business accelerates the roadmap for its next-generation SaaS product strategy.

“ApolloLIMS' diverse expertise helps us push the boundaries of the diagnostics market and enable organisations and governments to better fight the spread of disease,” said Eric Dingfelder, SVP and General Manager, HORIZON and ApolloLIMS (CliniSys Group companies). “Modern laboratories need the very best technology platforms to streamline their workflows and improve disease monitoring. Joining CliniSys ensures ApolloLIMS' customers of that future.”

### **About CliniSys**

CliniSys, headquartered in Chertsey, England and Tucson, Arizona, is one of the largest providers of laboratory information systems, order entry and result consultation, and public health solutions in disease surveillance and outbreak management across the United Kingdom, Europe, and the United States. For 40 years, successfully specializing in complex and the wide scale delivery of comprehensive laboratory and public health solutions in over 3,000 laboratories across 34 countries using CliniSys solutions.

Our combined cross-discipline expertise provides customers with solutions to support laboratory workflow across clinical, histology, molecular, genetics, including order management, reporting and results delivery. Additionally, we serve laboratories in environmental testing, water quality, agriculture, and toxicology.
